### COLECCIÓN LUCI E RIFLESSI

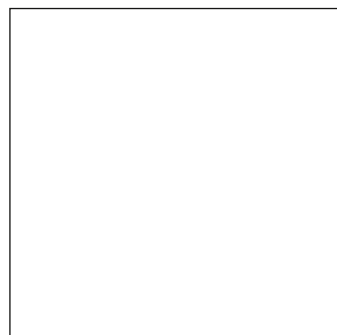

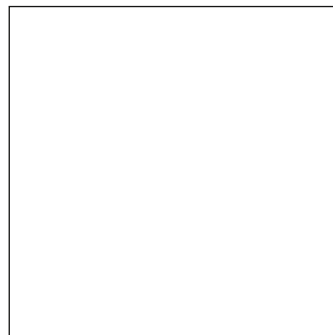

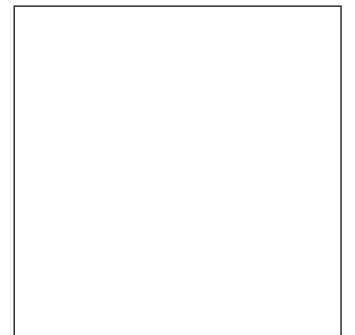

**El rostro iluminado completamente, un maquillaje perfecto: ésto es lo que quieren las clientes.**

Hoy en día OML le corresponde a estas exigencias produciendo espejos con una técnica de iluminación totalmente móvil, una colaboración innovativa con Metal Lux, empresa líder en el sector de la proyectación y producción de equipos de alumbrado. Dicho nuevo sistema consiente mover a gusto y a discreción del cliente, el grupo de alumbrado por encima, por el lado del espejo, y a la inversa sin usar utensilio alguno, solamente con las manos, y sin peligro alguno para las persona. Ello es posible porque el grupo de alumbrado está alojado encima de un marco equipado con unas calamitas que consienten mover el espejo como uno quiere. La instalación es de 12 V. Además ... un amplio programa de iluminación con espejos, apliques y plafones. El catálogo específico permite una consultación clara para una elección segura, personalizada y coordinada.
